

Activitati Biblioteca IFIN-HH 2016

I. Prezentari si training.

22.01.2016 – Prezentare Baza de date “Science” / American Association for Advancement of Science (compania iGroup)

23.02.2016 – Prezentare Chemical Data Reaxys/ Elsevier. Reaxys retrieves literature, compound properties and chemical reaction data faster than any other solution. Experience the speed of Reaxys for yourself on the ChemSearch Challenge.

24.02.2016 - Prezentare si demo produsul “Primo” Ex Libris / Budapesta. A single search interface provides a gateway to a wealth of scholarly content, including print, electronic and digital collections. Primo’s sophisticated search and relevance ranking algorithm ensures the most relevant results, based on the context of the search and the user’s profile.

31.03.2016 – Prezentare Thomson Reuters / Web of Science. The most comprehensive and versatile research platform available.

12.05.2016 – Training Access mobil (Summon/ProQuest) compania Enformation. The Summon Service increases the value of the library by delivering an unprecedented research experience. More than a single-search box, the service makes collection more discoverable and provides unique ways for users to connect with librarians. The result is a rich research experience that presents results without bias, increases resource usage, strengthens the library’s role in the research process, and meets user expectations.

20.05.2016 – Prezentare Thomson Reuters / Web of Science. Tema: „Navigheaza prin istoria stiintei folosind Web of Science pentru a descoperi cercetarea”.

27.05.2016 – Prezentare “Rosetta” si “Primo” produse Ex Libris Budapesta. Rosetta is a complete preservation solution that addresses the ever-growing need to collect, archive and preserve the digitally-born and digitized materials stored at academic institutions, research organizations, and government institutions, ensuring data integrity and access over time to information in digital formats.

22.07.2016 – Training pentru baze de date abonate de IFIN-HH pentru 2016 prin Anelis Plus / Enformation.

20.09.2016 –Prezentare Web of Science – InCites. InCites is a customized, web-based research evaluation tool that allows you to analyze institutional productivity and benchmark your output against peers worldwide. With customized citation data, global metrics, and multidimensional

profiles on the leading research institutions, InCites gives comprehensive insight into your institution's performance. And with robust visualization and reporting tools, you can create and share reports quickly and easily.
